

# Texas Transportation Code § 621.101. Maximum Weight of Vehicle or Combination

The overall gross weight on a group of two or more consecutive axles may not be heavier than 80,000 pounds, including all enforcement tolerances, regardless of tire ratings, axle spacing (bridge), and number of axles.

(b-1) Notwithstanding any other provision of this section, a vehicle or combination of vehicles that is powered by an engine fueled primarily by natural gas may exceed any weight limitation under this section by an amount that is equal to the difference between **the weight of the vehicle attributable to the natural gas tank and fueling system carried by that vehicle and the weight of a comparable diesel tank and fueling system, provided that the maximum gross weight of the vehicle or combination of vehicles may not exceed 82,000 pounds**
